BIBLIOGRAPHY OF TRADE CATALOGUES, 1800-1880, IN EASTERN CANADA

Eileen Woodhead

Printed pamphlets, devoted exclusively to the description of merchandise offered for sale, were a popular method of advertising in the 19th century. These "trade catalogues" became increasingly prolific as the century progressed, reflecting the competition in the market for manufactured goods and the cheaper printing methods available. In America catalogues were an expedient method of merchandizing considering the vast geographical areas served by suppliers. The pamphlets could be distributed easily by mail services to consumers and retailers, or carried by travelling salesmen who could not physically transport or display every product for examination by potential customers.

The prototype of the 19th-century trade catalogue is the "pattern book" carried by wholesalers' agents in 18th-century England and America. These books, or sheets of plates, illustrated the types and varieties of goods offered and supplemented the samples which were carried whenever possible. The pattern books seldom identified the manufacturers or suppliers by name, as an agent often carried lines of merchandise from multiple sources, which he did not always want to reveal to his customers. Also, the same products frequently were available from a number of different manufactories with which the agent could place his orders. By contrast, 19th-century catalogues displayed the name of the manufacturer or supplier prominently, if not flamboyantly, as the intent of the publication was to attract the customer's attention to a particular firm.

Catalogues from the first half of the 19th century vary in format from a single page listing the goods available, with or without current prices, to well-illustrated books of some length. The plates, or cuts, used were not always contemporary with the publication. Sometimes standard cuts were used, (in the same manner as many that appeared in newspapers or broadsides), or were ones that had been prepared for earlier editions of the catalogue. Many catalogues sitll use this technique in order to reduce printing costs, especially where the merchandise illustrated has not changed in appearance. In the latter half of the 19th century, when printing processes became more economical and when the merchandise was rapidly changing - especially in the case of patented goods - the illustrations were more likely to have been prepared specifically for the catalogues.

Trade catalogues have become a valuable resource for the historical researcher, often supplying information that is difficult to obtain from other written documents. The availability of goods, their origins and their prices are some of the data catalogues can contribute to the study of economic conditions, trade and commerce. When the catalogues are illustrated they offer tangible evidence of the objects being marketed, which is of real value to those involved with material culture history in the fields of archaeology and restoration and in the interpretation of historic sites. Dated illustrations can also help to distinguish between historical variations in

artifacts and aid in the identification of objects with obsolete nomenclature.

Until comparatively recently, trade catalogues have received little attention in Canada. Few libraries have acquired any number of these publications, and those that have generally use orthodox cataloguing methods, i.e. author and title, which makes their retrieval difficult unless the name of the firm is known. Occasionally they are cross-indexed by subject, although this is becoming less common with the increased costs of cataloguing. As many of the trade catalogues are small publications they are not always shelved as books, but kept in separate files. In archival sources, trade catalogues appear incidently among business or family papers and are not readily accessible without an exhaustive search. This bibliography of trade catalogues was conceived partially as a result of the frustration these factors have created, in the hope that the identification and location of these publications may be of help to others searching for this type of information.

The search for trade catalogues was initially limited to the pre-Confederation period, as documentation for artifacts in Canada in these years is limited. Due to limitations on time and travel, the search was conducted in Eastern Canada where the effort was likely to be more successful. Although aware of the scarcity of this type of material, it was surprising to find how extremely rare such documents are in Canadian collections. The time frame was therefore extended to the period 1800-1880, which resulted in a listing of over two hundred catalogues.

Most trade catalogues have survived by accidents of fate. Their original intent to supply current information precluded their usefulness when that information was out-of-date. Consequently, most were discarded or destroyed. Whenever a significant number of catalogues was located during this project, it proved to be the result of one person's interest, reflecting a particular concern of someone with a collector's instincts. Libraries that have expressed interest in acquiring trade catalogues have usually purchased those that relate to local history published by businesses, tradesmen and merchants in their vicinity, or a collection previously assembled by an individual. The contents of the extant trade catalogues were varied, including some quite unexpected subjects. In a young country, dependent on a rural economy and in the process of establishing an industrial basis, such as was Canada in the early 19th century, catalogues offering agricultural implements and machines, mill and factory equipment and power sources such as steam engines, were expected. Surprisingly, the number of surviving catalogues that offered musical instruments for sale was greater than those that supplied mill and factory equipment or hardware.

The largest collection of 19th-century trade catalogues in Eastern Canada is to be found in the Public Archives Library in Ottawa, among the Barnett Papers (MG30 B86). John Davis Barnett (1845-1926) was an employee of the Grant Trunk Railroad and a man of wide-ranging interest. He was a well-known bibliophile during his lifetime and had assembled a large library which included all kinds of printed material. The part of his collection that is now in the Public Archives consists principally of technical information including treatises and reports as well as trade catalogues, much of it concerned with the development of railroading.

The Regional Collection in the Weldon Library at the University of Western Ontario contains the papers of Joseph Seymour Fallows, a well-to-do farmer and one of the founders of Imperial Oil. There are several files in these papers which include catalogues of farming equipment and other aspects of fural life. The Regional Collection also mantains files of documents related to businesses in Ontario cities and towns. The North York Public Library, in Willowdale, Ont., has a collection of trade catalogues in their Canadiana section dealing mostly with suppliers from the Toronto area. The Metropolitan Toronto Library has trade catalogues in the Baldwin Room and in the Fine Arts Department. Most of the trade catalogues cited below which are not from these major collections were listings submitted by historical societies, museums and libraries in response to correspondence. A collection was reported at Dalhousie University, but there was no opportunity to examine it during

the preparation of this bibliography. All the above collections include catalogues from the last two decades of the 19th century and the early 20th century, as well as many undated examples.

The catalogues listed below are arranged under subject headings. Each of the entries include the identity of the firm, the location or address, the date of the catalogue, the content or title, the number of pages and illustrations (when possible), and the location of the catalogue and its retrieval coding. Several libraries requested that it be made known that most of this material does not circulate on Interlibrary Loan, and much of it is in too delicate a condition to permit photocopying. Catalogues from private collections have not been included as access to these may not be convenient or easily arranged. Historic catalogues are now being reprinted by organizations such as the Early American Industries Association, the Association for Preservation Technology, groups of tool collectors and some publishers, but, to date, these have all been American publications. The list below is not definitive; many more trade catalogues may be lying unrecognized in various holdings about the country, or in collections that did not receive our attention. As libraries are now increasing their acquisitions and book dealers are aware of the demand, this listing may soon be obsolete.

I wish to thank all the libraries and museums contacted for their helpful contributions, even when they were pressed for time and staff to locate entries. Files are being kept on 19th century catalogues in Canadian holdings as they come to light, and if the response to this bibliography is favourable, listings of catalogues from the remaining two decades of the 19th century may be considered in the future.

TRADE CATALOGUES, 1800-1900
arranged by subject

ABRASIVES, and grinding machinery

NEW YORK BELTING & PACKING CO.
New York
(D.P. Dieterich, agent, Philadelphia)
1869
Patent Solid Emery Vulcanite Wheel (grinding wheels).
10 pp., illus.
OOA MG30 B86 Vol.192 Cat. 17.

UNION STONE CO.
Boston and New York
1876
Emery Wheels and Emery Wheel Machinery for Grinding and Polishing.
Circular No. 30.
37 pp., illus.
OOA MG30 B86 Vol.192 Cat. 30.

AGRICULTURAL IMPLEMENTS, tools and machinery

ATKINS, JEARUM
London
1853
Atkins Automaton or self-raking reaper and mower, invented by Mr. Jearum Atkins.
32 pp., illus.
OOAg 630.942 A874

AYR AGRICULTURAL WORKS
Ayr, Ontario
187-
The Largest Assortment / of First Class Agricultural Machines and Implements /in America is to be found at the / Ayr Agricultural Works / Ayr, Ontario /Revised Price List. . .
OTPB Broadside.

BILLINGTON. JULIUS P.
Dundas, Ontario
1876
Billington's Improved Grain Drills, manufactured at Dundas
8 pp., illus.
OTAR Pam.1876, No. 40.

CHALLENGE MILL CO.
Batavia, Ill.
[1879]
Challenge Wind Mills, Feed Mills, Horse Powers, Wood Saws, Farming Mills, Etc.
8 pp., illus.
OLU Fallows File 99.

CHARLES THAIN
Upper Wyndham St.
Guelph, Ont.
187-
"Charles Thain manufactures the Best Double Mould Plough, Turnip, Carrot and Mangold Drill. . . He also keeps for sale the Paris Straw Cutter by A. Whitelaw, Paris" (includes a list of other brands of machinery for which he does repairs)
OTPB Broadside James Papers

EWALD OVER
34 East Georgia St.
Indianapolis
[1879]
Manufacturer of Ragan's Power Cider Press, Cider Wine Press and Apple Grinders, Grain Drills, Etc.
2 pp., illus.
OLU Fallows File 98.

GEORGE WHITE & SONS CO., LTD.
London, Ont.
1870-1922
White Threshing Machinery, The "First Quality Line." Catalogues, on Microfilm.
OTAR MS446, microfilms 2 & 3.

IOWA BARB WIRE CO.
89 Lake St.
Chicago
[1876]
The Eureka Post Hole Digger.
2 pp., illus
OLU Fallows File 98.

JAS. B. ELLIOTT
The Clipper Machine Works
Keene, N.H.
1871
The Clipper Mower Reaper
24 pp., illus.
OLU Fallows File 104.

JAMES FLEMING
Yonge St.
Toronto
1855
Seedsman and Florist. Catalogue includes garden tools, garden and agricultural seeds.
12 pp.,
OTPB 631.5212 F47.

JOHN ABELL
Woodbridge Agricultural Works
County York, Ontario
1872
Agricultural implements and machines manufactured by Abell.
64 pp., illus.
OTUTF D-10, 3787, and, OOA Library 1872(74).

JOHN GRAY & CO.
Scotland
185-
Illustrated Advertisements for Ploughs, Grubbers, Harrows, Threshing Machines and Other Farm Implements.
OTAR MSS Lauder VI (c) Box 6, MU1708.

JOHN WATSON
Ayr Agricultural Works
Ayr, Ont.
1871
Threshing, Mowing and Reaping Machines.
39 pp., illus.
OTUTF RBSC

MASSEY MANUFACTURING CO.
Newcastle, Ont.
1879
Catalogue of Harvester, Horse-drawn Rakes, Plows, etc.
Illus. Catalogue
Aurora Historical Society, Aurora, Ont.

MITCHELL & TEEPLE
Champion Works
Harriston, Ontario
Sept. 24, 1873
Farm machinery and sawing machines.
Pamphlet.
OTPB Broadside.

NOXON BROS.
Ingersoll, Ont.
1872
Manufacturer of "Standard" Seeding and Harvesting Machines, Binders, Drive Wheels, Cutter Bars, Drills, Mowers and Cultivators, Reapers.
48 pp., illus.
OTNY CDN T-189.

PITTS AGRICULTURAL WORKS
Buffalo, N.Y.
1880
Price List. Pitts Thresher and Horse Powers.
4 pp.,
OLU Fallows File 100.

SANDWICK DE KALB CO.
Illinois
1879
The Adams Patent Self-Feeding Power Corn Shellers.
24 pp., illus.
OLU Fallows File 99.

TORONTO REAPER & MOWER CO.
Toronto
1879
Whitely's New Toronto Reaper.
48 pp., illus.
OMUC

UNION MOWING MACHINE
Worcester, Mass.
1867
Union Mowing Machine, manufactured by Alzirus Brown for Thomas H. Dodge.
8 pp., illus.
OMUC

UNION MOWING MACHINE
Alzirus Brown, prop.
Worcester, Mass.
1870
Circular for 1870. The Union Mower and Champion Thresher.
18 pp., illus.
OMUC

WATERLOO MANUFACTURING CO.
1850
Agricultural Implements
(Reproduction, 1910)
OTAR Mic. MS446.

WM DRAY & CO.
London
1852
Agricultural implements and machines, Engineering machines and implements.
OTMCL Fine Arts.

WILLIAM RENNIE
Toronto Agricultural Warehouse
Toronto
1872
Importer, Manufacturer and Dealer in All Kinds of Agricultural Machinery, Farming Implements and Tools, Field and Garden Seeds, Fruit Trees, Fertilizer, Etc.
102 pp., illus.
OOA Library 1872(19)

ASBESTOS PRODUCTS

DOWNIE, TRAINER & CO.
1877
Catalogue and Price List of Asbestos Materials
2 pp.
NBFA Read Stone Co. 22-260 and 22-261.

BOILERS, boiler components and maintenance.

AMERICAN ANTI-INCRUSTATION CO.
John Cresson, Pres.
1866
Scale in Boilers. A Practical and Reliable Apparatus for Removing Scale in Boilers and Preventing Its Formation.
15 pp.
OOA MG30 B86 Vol.214 Cat.10.

CONNELLY, JANUS T.
Patentee
[1874]
Connelly's Gusset Connection for Steam Boilers. An Important Practical Improvement.
12 pp., illus.
OOA MG30 B86 Vol.211 Cat.5.

FAIRBANKS & CO.
St. Louis
[1879]
Sole Agent, Hill's Patent Locomotive Flue Welder.
1 leaf folded, illus.
OOA MG30 B86 Vol.217 Cat.9.

FAIRBURN & HALL
Manchester
1879
Hall's Patent Reliable Automatic Injectors and Elevators.
List no. 5.
1 pp., illus.
OOA MG30 B86 Vol.64 Cat.7.

HARTLEY & SUGDEN
Atlas and Premier Works
Halifax, England
1874
Improved Welded and Rivetted Combined Vertical Steam Boiler; New and Improved "Trentham" Cornish Boilers.
2 pp., illus.
OOA MG30 B86 Vol.212 Cat.8.

HARTLEY & SUGDEN
Atlas & Premier Works
Halifax, Yorkshire
[1876]
Catalogue and Price List of Boilers
14 pp., illus.
OOA MG30 B86 Vol.182 Cat.15.

J.F. GUTHRIE
Somerville, Mass.
[1876]
Improved Patent Ejector-Condenser
1 p., illus.
OOA MG30 B86 Vol.68 Cat.20.

MELLEN, WILLIAMS & CO.
(Boston)
1874
The Weigand patent Sectional Steam-Boiler
16 pp., illus.
OOA MG30 B86 Vol.213 Cat.13.

NATHAN & DREYFUS
New York
1876
Illustrated Catalogue and Price List of Drefus' Patent Self-Acting Oilers and Lubricators, Friedmann's Patent Injectors.
12 pp., illus.
OOA MG30 B86 Vol.64 Cat.33.

NATHAN & DREYFUS
New York
1877
The Best Injector for Stationary, Portable, Locomotive and Marine Boilers
8 pp., illus.
OOA MG30 B86 Vol.141 Cat.28.

PORTER, A.F.
[1865]
Porter's Electric Steam Battery, or Inductor, for the Removal and Prevention of Scale in Steam Boilers.
7 pp., illus.

UNITED STATES ANTI-INCRUSTATION CO.
Buffalo, N.Y.
[1867]
A Cheap, Practical and Positive Apparatus for Expelling from Steam Boilers All Sediments and Scale, and Preventing Its Accumulation or Formation Within a Boiler.
8 pp., illus.
OOA MG30 B86 Vol.214 Cat.39.

WM SELLERS & CO
Philadelphia
1877
Self-Adjusting Injector
1 leaf folded, illus.
OOA MG30 B86 Vol.64 Cat.52.

BUILDERS and contractors equipment and supplies

ALFRED HALL'S MACHINE
Austin Adams, Agent
Montreal
Feb. 1, 1848
Alfred Hall's Brick Moulding Machine and Tempering Mill. Patented Westminster Oct. 2, 1845. With Instructions and Affadavits.
12 pp., illus.
OTPB 666.7 A21

AMERICAN PIER & COLUMN CO.
New York
1874
Wharves, Bridges, Viaducts, Light-Houses, Beacons, Breakwaters, etc.
25 pp., illus.
OOA MG30 B86 Vol.386 Cat.1.

COTTAM & CO.
London
1878
Constructive and Ornamental Ironwork for Stairs, Balconies and Verandahs. Catalogue and Price List.
31 pp., illus.
OOA MG30 B86 Vol.18 Cat.2.

DAVID ROWELL & CO.
London
[1893]
General Catalogue No. 793. Iron and wire fencing, iron bridges, roof and buildings.
50 pp., illus.
OOA MG30 B86 Vol.33 Cat.7.

DE MORGAN, WILLIAM F.
Chelsea, London
1879-80
Tiles.
OTMCL Fine Arts.

GEO JACKSON & CO.
London
1875
Architectural details.
OTMCL Fine Arts.

JAMES KIRTLAND & CO.
1870
Ironwork, castings, fountains, etc.
OTMCL Fine Arts.

JOS. CLIFF & SONS
London
1876
White and Coloured Glazed Bricks.
Price List.
2 pp.
OOA MG30 B86 Vol.14 Cat.5.

RAND McNALLY & CO.
New York
1871-1897
Facsimile copies of catalogues.
Architectural details and woodwork.
OTMCL Fine Arts.

RIBAND TELEGRAPH POST CO.
Manchester
[1874]
Illustrated Catalogue of the Patent Wrought Iron Riband Spiral Pillars.
48 pp., illus.
OOA MG30 B86 Vol.204 Cat.9.

SISSON & WHITE
Hull, England
[1859]
Improved Patent Steam Pile Driver, No. 1.
2 pp., illus.
OOA MG30 B86 Vol.386 Cat.10.

WALTER MacFARLANE & CO.
Glasgow and London
187-
Illustrated price lists of MacFarlane's castings.
139 pp. (total), illus.
OOA MG30 B86 Vol.18 Cat.5.

CARRIAGES and wagons

DECATUR IRON FELLOE WAGON CO.
Decatur, Ill.
1844
Wagons, Catalogue and Price List.
4 pp., illus.
OLU Fallows File 99.

DRY GOODS

London, England
1875
Illustrated List of Monuments, Tombs, Crosses, Headstones and Mural Tablets.
27 pp., illus.
OOA MG30 B86 Vol.353 Cat.1.

ENGINES; steam engines

AMERICAN LUBRICATOR CO.
Detroit, Mich.
1880
The Far Famed American Lubricator.
48 pp., illus.
OOA MG30 B86 Vol.141, Cat.2.

BOURNE, JOHN
London
1874
Balanced Compound Steam Engines with Vertical Cylinders for Driving Mills and Factories, for Pumping Water and for Other Purposes
8 pp., illus.
OOA MG30 B86 Vol.247 Cat.5.

BUCKEYE ENGINE CO.
Salem, Ohio.
1876
Illustrated Catalogue and General Circular of the Buckeye Engine Co.
16 pp., illus.
OOA MG30 B86 Vol.221 Cat.3.

CHAS GREGG MANUFACTURING CO.
New York
1872
Bundy & Weaver's Improved Balance Slide Valves, for Locomotive, Marine and Stationary Engines
2 pp., illus.
OOA MG30 B86 Vol.170 Cat.10.

FARRAR & TREFTS
Buffalo, N.Y.
[1874]
Steam Engine, Boiler and Machine Works. Propellor Wheels a Specialty.
1 leaf folded, illus.
OOA MG30 B86 Vol.61 Cat.1.

JUDSON, JUNIUS
Patentee
Rochester, N.Y.
1870
Reduced Price List of Judson's Patent Governors and Patent Graduating Governor Valves for Stationary Steam Engines
4 pp., illus.
OOA MG30 B86 Vol.170 Cat.26.

NATIONAL TUBE WORKS
Boston
1872
Mack's Patent Injector
1 leaf folded, illus.
OOA MG30 B86 Vol.64 Cat.35.

NATIONAL TUBE WORKS CO.
McKeesport, Pa. and Boston, Mass.
1876
Price List of Best Quality Seamless, Lap Welded, Wrought Iron and Steel Boiler Tubes, Steam, Gas and Water Pipe, Oil Well Tubing and Casing, Mack,s Patent Injector.
8 pp., illus.
OOA MG30 B86 Vol.217 Cat.25.

NATIONAL TUBE WORKS
New York
1877
Mack's Patent Injector.
1 p., illus.
OOA MG30 B86 Vol.64 Cat.36.

NATHAN & DREYFUS
(see under BOILERS).

ROBIN DOUGLAS
Kirkcaldy, N.B.
[1868]
Engineer, Millwright, Ironfounder and Boiler Maker. The Corliss Engine, Douglas Grant's patent.
16 pp., illus.
OOA MG30 B86 Vol.68 Cat.28.

ROOT STEAM ENGINE CO.
New York
1867
The Illustrated Catalogue and Price List of Stationary, Portable and Marine Engines.
45 pp., illus.
OOA MG30 B86 Vol.68 Cat.29.

STEVENS, A.J.
Sacramento, California
[1873]
Patent Balance Slide Valve for Locomotive, Stationary, and Marine Engines
3 pp., illus.
OOA MG30 B8[illegible]ol.170 Cat.40.

Wm G. ULERY
New York
1872
Joseph M. Coale's Patent Anti-Friction Slide Valve
4 pp., illus.
OOA MG30 B86 Vol.170 Cat.43.

ENGINES; locomotive

ELLIOTT BROTHERS
London, England
1875
Hearson's Styrophometer, or Revolution Indicator
4 pp., illus.
OOA MG30 B86 Vol.196 Cat.8.

RAILWAY SPEED RECORDER CO.
Meadville, Pa.
1876
Wythe's Patent Speed Recorder
4 pp., illus.
OOA MG30 B86 Vol.196 Cat.13.

SHERBURNE & CO.
Boston
[1878]
Farrington's Patent Machine for Raising and Revolving the Driving Wheels of Locomotive Engines to Adjust Eccentrics and Valves.
2 pp., illus.
OOA MG30 B86 Vol.139 Cat.20.

TAITE & CARLTON
London, England
1879 & 1883
W. Stroudley's Patent Speed Indicator-2 pp., illus.
Stroudley's Speed Indicator, 1 p., illus.
OOA MG30 B86 Vol.351 Cat.52.

WM BIRD & CO.
London, England
[1878]
Locomotives for Light Railways, Mines, Collieries.
No. 84 & 85.
2 pp., illus.
OOA MG30 B86 Vol.156 Cat.5.

ENGINES; internal combustion

NEW YORK ENGINE WORKS
New York
1865
Mining and Petroleum Engines
8 pp., illus.
OOA MG30 B86 Vol.69 Cat.23.

FENCING

COLLARD'S PATENT WROUGHT IRON FENCES, GATES, RAILING AND CRESTING
Gananoque, Ont.
1879
Railing, fencing, etc.
Illus. Catalogue.
Ottawa City Archives MG2-12-54

FIRE-FIGHTING EQUIPMENT

RUMSEY & CO.
Seneca Falls, N.Y.
1875-6
Fire-fighting equipment, fire engines, pumps.
OTMCL Fine Arts.

FURNITURE and furnishings

CLARKE, J.F.
1879
Pneumatic Bells. Improved System of Bellhanging
10 pp., illus.
OOA MG30 B86 Vol.251 Cat.1.

FRANK A. HALL
200 Canal St.
New York
[1879]
Catalogue includes beds, cots, bedding, mattresses, bed springs, etc.
38 pp., illus.
OTNY CDN T-66.

G.W. KING & CO.
Toronto
ca. 1867
Agent for Patent Metalic or White Wire for Clotheslines.
2 pp.
OTPB Broadside

HOWARD & SONS, LTD.
London
186-
Household furniture, chairs.
OTMCL Fine Arts.

MACNIDER, ADAM L.
Montreal
1835
Catalogue of Household Furniture to be Sold, by Auction, at the Dwelling Home of Mr J.H. Dorwin.
4 pp., annotated.
OOA MG30 B86 Vol.380 Cat.10.

ORNAMENTAL WOOD CO.
New York
1870
Illustrated Catalogue (includes door knobs, curtain knobs, rosettes, drawer handles and pulls, etc.)
24 pp., illus.
OOA MG30 B86 Vol.31 Cat.27.

PEYTON & PEYTON
London
187-
Beds and bed linens.
OTMCL Fine Arts.

GLASS

F. & C. OSLER
London
1879
Illustrated Catalogue and Price List of Glass Services; Lamps, Candleabra, Candlesticks; Breakfast, Dinner and Tea Services; Etc.
23 pp., illus.
OOA MG30 B86 Vol.176 Cat.2.

BULLETIN DE RECHERCHES

N° 217 Mai 1984

BIBLIOGRAPHIE DE CATALOGUES COMMERCIAUX DE L'EST DU CANADA, 1800-1880

Eileen Woodhead

Les brochures imprimées, destinées exclusivement à la description de la marchandise à vendre, étaient, au XIXe siècle, un moyen populaire d'annoncer les produits. Ces "catalogues commerciaux" sont devenus de plus en plus abondants au cours du siècle, illustrant la concurrence du marché pour les produits fabriqués en usine et l'utilisation de méthodes d'impression moins coûteuses. En Amérique, les catalogues étaient le moyen tout indiqué de faire du commerce étant donné les vastes régions desservies par les fournisseurs. Les brochures pouvaient être facilement distribuées aux clients et aux détaillants par les services postaux ou bien emportées par les voyageurs de commerce, pour qui il était physiquement impossible de transporter tous les produits afin de permettre à leurs clients éventuels de les examiner.

L'ancêtre du catalogue commercial du XIXe siècle était le "livre d'échantillons", dont se servaient les grossistes anglais et américains au XVIIIe siècle. Les livres, ou recueils de photographies, illustraient les divers produits offerts et étaient accompagnés, quand c'était possible, d'échantillons. Les livres d'échantillons indiquaient rarement le nom des fabricants ou des fournisseurs car le commerçant transportait souvent des marchandises provenant d'une multitude d'établissements, ce qu'il préférait parfois taire à sa clientèle. En outre, il arrivait fréquemment qu'un même produit soit fabriqué par plusieurs usines auxquelles pouvait s'approvisionner le commerçant. Par contre, au XIXe siècle, le nom du fabricant ou du fournisseur était inscrit bien en vue, sinon de manière extravagante, sur le catalogue puisque ce dernier avait pour objet d'attirer l'attention du client sur une entreprise donnée.

Les catalogues de la première moitié du XIXe siècle variaient du simple feuillet donnant la liste des produits disponibles, avec ou sans les prix courants, au livre bien illustré comportant un nombre de pages appréciable. Les photographies ou illustrations n'étaient pas toujours aussi récentes que les catalogues eux-mêmes. On utilisait parfois des clichés standards (comme c'était souvent le cas pour les illustrations paraissant dans les journaux ou dans les feuillets) ou encore les mêmes clichés que ceux qu'on avait préparés pour les éditions antérieures du catalogue. On a encore souvent recours à cette technique afin de réduire les frais d'impression, particulièrement lorsqu'en apparence la marchandise n'a pas changé. Durant la seconde moitié du XIXe siècle, alors que les procédés d'impression étaient devenus plus économiques et que la marchandise changeait rapidement, particulièrement dans le cas des produits brevetés, il était plus fréquent que les illustrations soient préparées expressément pour les catalogues.

Les catalogues commerciaux sont devenus des ressources précieuses pour l'historien puisqu'ils fournissent des renseignements qu'il est difficile de retrouver dans d'autres documents écrits. La disponibilité des produits, leur origine et leurs prix sont quelques-unes des données que les catalogues peuvent livrer pour l'étude des conditions économiques et du commerce de l'époque. Lorsque les catalogues sont illustrés, ils offrent une preuve tangible des objets que l'on trouvait autrefois dans le commerce et ont donc une grande valeur pour ceux qui travaillent dans le domaine de l'archéologie de même que dans

celui de la restauration et de l'interprétation des sites historiques. Les illustrations datées peuvent également aider à établir les variations historiques des artefacts et à identifier des objets figurant dans une nomenclature désuète.

Jusqu'à plus ou moins récemment, on s'est peu intéressé aux catalogues commerciaux au Canada. Rares sont les bibliothèques qui ont acquis ce type de publication et celles qui l'ont fait ont généralement utilisé une méthode de catalogage traditionnelle, c'est-à-dire un classement par auteur et par titre, ce qui rend la recherche difficile, à moins que l'on ne connaisse le nom de l'entreprise. À l'occasion, les catalogues ont aussi été classés par sujet, bien que cette pratique devienne de moins en moins courante en raison de l'augmentation des frais de catalogage. Comme un grand nombre des catalogues sont de dimension restreinte, ils ne sont pas toujours placés avec les livres sur les rayons, mais plutôt gardés dans des classeurs distincts. Dans les archives, on en retrouve à l'occasion parmi les papiers d'une entreprise ou d'une famille, mais non sans avoir fait une recherche exhaustive. La présente bibliographie de catalogues commerciaux a été élaborée en partie en raison de la frustration que ces facteurs ont suscitée et dans l'espoir que les efforts déployés pour identifier et retrouver ces publications puissent servir à d'autres qui ont entrepris des recherches similaires.

Nous avions initialement limité nos recherches à la période d'avant la Confédération, étant donné le peu de documentation disponible concernant les artefacts canadiens de ces années. Vu le temps dont nous disposions et nos contraintes en matière de déplacements, les recherches ont été réalisées dans l'Est du Canada, où nos efforts avaient des chances d'être couronnés de succès. Nous étions au courant de la rareté de ce matériel, mais nous avons été surpris de constater le nombre extrêmement faible de ces documents dans les collections canadiennes. Il a donc été décidé de couvrir la période allant de 1800 à 1880, ce qui a permis d'établir une liste de plus de 200 catalogues.

La plupart de ces catalogues ont survécu jusqu'à aujourd'hui par accident. Leur objet premier étant de fournir des renseignements actuels, ils devenaient inutiles lorsque ces renseignements étaient périmés. La plupart furent donc jetés ou détruits. Chaque fois que l'on retrouvait un nombre considérable de catalogues, c'était le résultat de l'intérêt particulier qu'une personne ayant l'instinct de collectionneur leur avait porté. Les bibliothèques qui se sont montrées intéressées à acquérir des catalogues ont généralement acheté ceux qui étaient liés à l'histoire de la région et qui furent publiés par des hommes d'affaires, des commerçants et des marchands locaux ou encore les collections de particuliers. Le contenu des catalogues retrouvés était varié et certains illustraient des articles tout à fait inattendus. On s'attendait à ce qu'un pays jeune, tributaire d'une économie rurale et en train de s'industrialiser, ce qu'était le Canada au début du XIXe siècle, produise des catalogues offrant des outils et des machines agricoles, de l'équipement pour les moulins et les usines et des machines à vapeur. Chose surprenante, les catalogues retrouvés qui annonçaient des instruments de musique étaient plus nombreux que ceux qui offraient de l'équipement ou de la quincaillerie pour les moulins et les usines.

La plus importante collection de catalogues commerciaux du XIXe siècle de l'Est du Canada se trouve aux Archives publiques, à Ottawa, parmi les papiers Barnett (MG30 B86). John Davis Barnett (1845-1926) était un employé de la compagnie ferroviaire Grand Tronc et un homme aux intérêts variés. C'était un bibliophile bien connu à son époque et il avait réunit une bibliothèque imposante qui comprenait toute sorte de documents imprimés. La partie de sa collection qui se trouve actuellement aux Archives publiques est surtout constituée de traités et de rapports techniques ainsi que de catalogues commerciaux qui concernent pour la plupart le développement ferroviaire.

La collection régionale de la bibliothèque Weldon à l'University of Western Ontario contient les papiers de Joseph Seymour Fallows, riche fermier faisant partie des fondateurs d'Imperial Oil. Plusieurs dossiers comptent des catalogues sur le matériel agricole et d'autres aspects de la vie rurale. La collection contient également des documents concernant des entreprises établies dans différentes villes ontariennes. La North York Public Library, à Willowdale, Ontario, possède dans sa section "Canadiana" une collection de catalogues commerciaux publiés en grande partie par des fournisseurs de la région de Toronto. On en trouve aussi à la salle Baldwin et à l'École des Beaux-Arts de la Metropolitan Toronto Library. La plupart des catalogues énumérés plus bas et qui ne proviennent pas de ces grandes collections ont été retrouvés par des sociétés historiques, des musées et des bibliothèques en réponse à nos lettres. On a signalé l'existence d'une autre collection à l'université Dalhousie, mais il a été impossible d'aller l'examiner. Toutes les collections susmentionnées datent des deux dernières décennies au XIXe siècle ainsi que du début du XXe siècle. Certains catalogues ne sont toutefois pas datés.

Les catalogues énumérés plus bas sont classés par sujet. Chaque entrée donne le nom et l'adresse de l'entreprise, la date du catalogue, son contenu ou son titre, le nombre de pages et d'illustrations (le cas échéant) qu'il contient, l'endroit où il se trouve et son code d'emplacement. Plusieurs bibliothèques ont demandé que l'on fasse savoir que la plupart de ces documents ne peuvent faire l'objet d'un prêt entre bibliothèques et qu'ils sont dans un état trop précaire pour être photocopiés. Les catalogues provenant de collections privées n'ont pas été inscrits à la liste étant donné qu'il pourrait être difficile d'y avoir accès. Certains catalogues historiques sont actuellement réimprimés par des organisations comme l'Early American Industries Association, l'Association pour la préservation et ses techniques, des groupes de collectionneurs d'outils et quelques éditeurs, mais, jusqu'à maintenant, il s'agit uniquement de publications américaines. La liste donnée n'est pas définitive; il reste peut-être encore au pays, dans divers fonds ou dans des collections que nous n'avons pas examinées, beaucoup de catalogues dont on ne connaît pas l'existence. Maintenant que les bibliothèques en acquièrent de plus en plus et que les libraires sont conscients de la demande, cette liste peut rapidement devenir désuète.

Nous aimerions remercier les responsables des bibliothèques et des musées avec qui nous avons communiqué; ils nous ont fourni une aide précieuse, même lorsqu'ils manquaient de temps et de personnel pour retracer les documents. Des fiches sont établies à mesure que les catalogues du XIXe siècle sont découverts dans les fonds canadiens, et, si la réaction à la présente bibliographie est favorable, il se pourrait que l'on envisage de dresser une liste de catalogues pour les deux dernières décennies du XIXe siècle.
